

ULTIMATE BALANCE

POWERFUL POTASSIUM
SUPPLEMENTED WITH SULFUR AND
MAGNESIUM—ALL IN ONE GRANULE

K-Mag[®]

THREE-IN-ONE POTASH
HIGH-VALUE CROP PERFORMANCE

UP TO 60% OF YIELD IS DEPENDENT ON CROP NUTRITION

Some say that's a lot. We say, "Why not more?"

K-Mag[®] is one of many products from The Mosaic Company. All of our products are conceived from the same place — the relentless pursuit of better. They are our answers to the question, "Can crop nutrition do more?" We think it can. In fact, we know it can.

Join us as we continue to explore and advance crop nutrition together, all in the name of smarter products, smarter practices and smarter business.

DECADES OF EXCEPTIONAL YIELDS

THREE VITAL NUTRIENTS THREE PRODUCT OPTIONS

- K-Mag® Premium, Granular and Standard potash help develop healthy root systems
- All three are excellent sources of non-chloride potassium (K), water-soluble magnesium (Mg) and sulfur (S)
- With less than 3% chloride (Cl) content, the potential for fertilizer “burn” is minimized

STRENGTH OF SECONDARY NUTRIENTS

- The combination of magnesium with potash builds resistance to winter kill and insects
- Magnesium activates a large number of enzymes aiding in synthesis of chlorophyll, while sulfur aids in the formation of amino acids

PERFORMANCE YOU CAN COUNT ON

- K-Mag has over 75 years of proven performance
- It improves crop quality and increases yields across a variety of crops and soil conditions
- Available in three unique grades, K-Mag matches your crops' specific needs, improving effectiveness
